

**VDOE Special Education Survey -
Private School Parent and Student Perspective Survey**

SCHOOL YEAR 2019-2020

The Virginia Department of Education (VDOE) has been charged with developing procedures to measure the academic and functional progress of students enrolled in private schools for students with disabilities through several outcome measures. The purpose of this survey is to solicit input from parents or guardians on how their child is progressing since being enrolled in a private school for students with disabilities. Your participation in this survey, as one measurement tool, will assist VDOE in collecting information necessary to measure the individual progress of a student enrolled in a private school for students with disabilities. It is important to note that your response will be recorded anonymously and cannot be personally linked to your child.

Parents or guardians who have more than one child receiving special education services in a private school for students with disabilities should submit one survey for each child receiving services.

When completing this survey you will answer questions designed to cause you to reflect upon your experiences during the current school year. If you have questions about this survey, please contact Hank Millward, via telephone, at (804) 371-0525, or via email, at Hank.Millward@doe.virginia.gov.

The online surveys are currently opened and will be available for completion at the following links until October 30, 2020:
